

Dear Timothy, Pam, Cindy, Judy, Ming:

How are you?

I hope your fine

I want to tell you about my goals. My goals are to study and pass my exams. Every Tuesday we have weekly test I expect getting 'A' in my exams.

Our school compound is very clean that we abstain throwing trash and stepping of the flowers.

In our school we have a nice class teacher and we have seven subjects which are Social, Science, math, English, music, Swahili, vocational. My best subject is Science and math later on I would like to be a doctor.

Thank you for remembering me I remember you when you wrote the letter and it was kindness. And I remember when we talked on the computer with madam Kiki.

Thank

You
